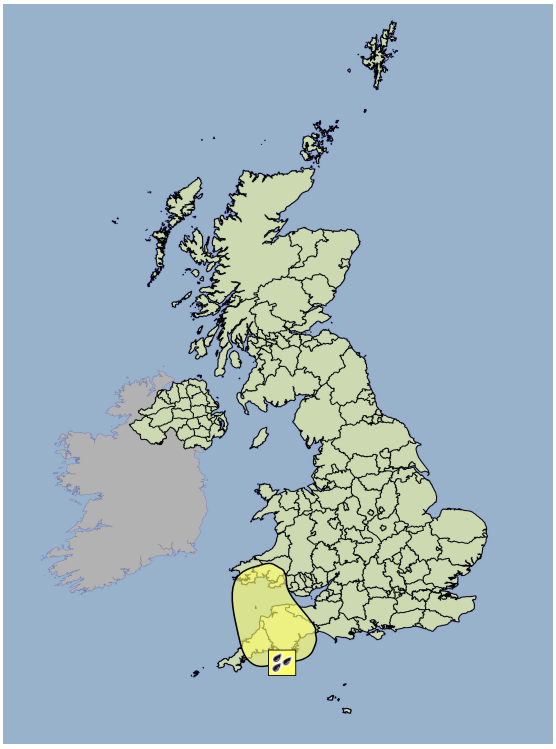
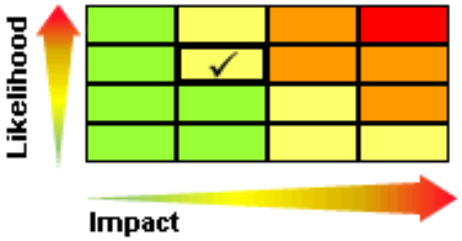
National Severe Weather Warning Service





Chief Forecasters Assessment
A slow moving front will bring heavy bursts of rain, giving the potential for over 50 mm of rain within a few hours. Leaves may impede drainage, increasing the risk of some flooding, e.g. to sections of road.

The rain will gradually ease from the southwest clearing much of Cornwall by late morning.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **06:00 on Tue, 27th Oct 2015** until **15:00 on Tue, 27th Oct 2015**

Outbreaks of rain will turn heavy at times on Tuesday. The public should be aware of the risk of local surface water flooding.

This is an update to the warning issued on Monday morning to bring forward the start time by 1 hour and to extend the warning area further west into Cornwall and north into parts of southwest Wales.
